Codepilot:

Codepilot helps GP practices increase their disease prevalences.

The software will scan through EMIS/SystmOne, carefully choosing and sorting tasks by confidence. The Case Solver aspect halves the time it takes to review a record.

GP time is saved by delegating tasks to other team members, freeing up GP's to do the work they do best.

Practices can claim income from QOF, LES/DES and other income sources.

Patients benefit from getting the care they need for their condition and reduced health inequalities.

Healthcare Monitors:

Healthcare Monitors UK Ltd Healthcare Monitors UK Ltd is specialised in providing health monitors for the primary and secondary care sectors. Set up some 20 years ago, it has been at the fore front of unsupervised patient monitoring and collection of QOF points. Some of the original K5 monitors are still in use today, although the latest model, the M8, can now be integrated with surgery records to ease the burden of staff even further.

Contactless monitoring of BMI & BP with integration to surgery records.

Increase the efficiency and safety of staff by replacing unnecessary appointments with contactless monitoring of blood pressure, height, weight and BMI, with results integrated directly to the patient records systems EMIS, SystmOne & Vision (optional).

Using our patient pod software and attached touchscreen, a patient's blood pressure, height, weight, BMI and pulse measurements can be taken and stored to their record. In addition, patients can be prompted to answer various lifestyle questions such as alcohol and smoking status, physical activity, asthma and epilepsy details. All measurements and responses are Read/ SNOMED coded and either filed automatically or held for peer review before being filed individually or as a batch. The patientPod software also allows a quick view of recent measurements for monitoring purposes from any PC in the practice. Compatible with most major GP systems including EMIS Web, SystmOne and Vision.

Monitors can be rented (long or short-term) or purchased outright.

With nearly 2000 monitors installed across the country in a wide range of situations, including, doctor's surgeries, hospitals, clinics, walk-in centres and pharmacies, why not request a free, no obligation, month long trial and see how much time and money you too can save?
