Hillcroft Surgery Supplies

At Hillcroft we want to give you peace of mind every day, with time saving processes and quickly delivered orders, so that you can spend more time caring for your patients. Hillcroft is a family run business that has been serving GP surgeries and health centres with everything they need for over 16 years. We thrive on meeting our customers' needs and requirements and will always go the extra mile to help out with anything that will make your life easier.

We have strongly established ourselves in the medical market as being an honest, reliable company with excellent customer service and unrivalled product quality and pricing. We firmly believe that we can offer anyone better levels of service, quality and cost and this is what motivates and drives our business forward. Hillcroft is fast becoming the name as a key supplier for GP surgeries and health centres, and hundreds of surgeries in the UK are depending upon us as their main supplier, and partner with us for all their needs.

Crescendo

Crescendo is a UK-based provider of speech recognition and digital dictation with decades of experience serving the NHS. With deep partnerships with industry leaders such as Microsoft, Nuance, EMIS and TPP, Crescendo delivers cutting-edge technology that empowers healthcare professionals to optimise their time, reduce costs and enhance patient care.

Healthcare Monitors

Healthcare Monitors have been specialising in the medical measurement business for over 20 years. Since the company's inception, we introduced these monitors to the UK market. We now have nearly 2000 monitors in the field, along with our adaptable PatienPod touch screen integration, where patients measurements can be stored against their record in most major GP systems(EMIS, TPP SystmOne & VISION). Various lifestyle questions can be answered along with text warnings and alerts for blood pressure and BMI.

Saving time & money, the monitors measure height and weight, calculate BMI and record diastolic and systolic blood pressure without the need for any supervision by a qualified professional. They are fully automatic and produce a printout, which can be handed to the receptionist or GP as required. The whole process takes about 90 seconds, thus saving the need for a ten minute, face to face nurse appointment and the consequent costs.

Why not sign up for a free, no obligation, month long trial in surgery?

Lexacom

Lexacom Echo revolutionises medical speech recognition; the only product able to automatically code clinical information and explain medical terms to patients. Speed up notes entry directly into clinical systems, patient communication platforms, and Microsoft Windows applications. Easily install across an unlimited number of PCs, with group pricing available.

Digital dictation: Built to stringent NHS standards, Lexacom is the number one choice trusted by UK clinicians. Easily dictate all types of documents, with customisable workflows for specific needs and procedures. Work efficiently across multiple sites by sharing information and resources.

Find out more about how Lexacom can help you save time and increase productivity. Call 01295 236910, email sales@lexacom.co.uk, or visit lexacom.co.uk. Find all our social media links at lexacom.co.uk/social

X-ON

With over 20 years of experience and expertise, X-on Health provides telephony services to over 60% of GP practices in the UK, and are actively working to ease the pressure on the "8am rush".

Our suite of products and services is growing, but Surgery Connect remains the market-leading Cloud-based telephony solution for GP practices. Built on reputation, we are trusted to improve patient access and support productive practice management across primary care. Scalable, innovative, and future-proof, our technology enables staff to handle high call volumes and patients to reach the services they need quickly and efficiently.

Surgery Connect has been tailored by feedback from healthcare professionals ensuring a system that uniquely serves the needs of GP Practices while addressing the digital and online ambitions of the NHS. Its extremely flexible structure allows configuration for single-site surgeries through to organisations with multiple sites. This means that resources can be balanced between the team when required.

Practice Managers already using Surgery Connect love the system for its reliability and ease of use. Don't just take our word for it, take a look at our nearly 300 5-star reviews on Practice Index!

Here's what one Middlesex Practice Manager had to say:

"I believe I have saved at least 1.5 sessions per week of GP appointments. Keep pushing the boundaries, X-on Health."

Driven by data, led by experts. Come and have a chat, and see what we can do to help your practice.
